

ELAC Debut Reference

Greater performance
and enhanced design –
introducing the
Reference series.

A promising trademark
Striking looks and realistic sound – with the Debut Reference, everything comes as standard. At its heart is the new waveguide for the tweeter.

Consistent and well thought out
A complex cabinet design incorporating a full-perimeter brace significantly reduces cabinet vibrations for more defined sound reproduction.

Power at every step of the way
The new woofer with a cast aluminum chassis provides improved stiffness for the entire structure – and will really get your feet tapping.

Reference is not merely a name, but the defining characteristic of a product that has been refined for our exclusive dealers.

The new Debut Reference is a logical step that builds on a world-renowned concept with creative impulses to inspire something new. The result is the Debut Reference and it offers significant acoustic and visual advances. With an exterior that draws on traditional and contemporary styles, it pairs an oak wood finish with a white satin matte painted front baffle to strike the perfect balance!

The ELAC Debut Reference is a future classic!
