

A black Shure SBC441 4-bay docking charger is shown with four Axient Digital PSM microphones docked in it. The microphones are black with silver accents and have long, thin antennas. The docking station is a rectangular black unit with a control panel on the front right featuring four status LEDs (1, 2, 3, 4) and labels for 'Power' and 'Storage'. The background is a dark, moody space scene with a large, bright planet or moon and colorful nebulae.
