- Designed and engineered in the U.K.

The 8,000-Watt VSX218B is a direct radiating passive twin 18" subwoofer that is ideally suited for a broad range of speech and music sound reinforcement applications in both fixed, portable, and touring audio systems. VSX218B's superb low frequency reproduction makes it the perfect choice for deployment in clubs, bars, theatres and AV applications.

Stunning Performance

A dual ported bass reflex system, the VSX218B features dual high powered 18" low frequency drivers that provide extended low frequency response to well below 30 Hz – for chest-pounding bass. Fast and accurate transient response enables the VSX218B subwoofer to generate massive quantities of tight low end output that is virtually distortion-free.

Versatility

VSX218B Subwoofers can be easily deployed in a multitude of configurations, thanks to the integral M10 rigging points. For touring and portable applications, the enclosures also feature strategically placed carry handles, which are ergonomically integrated into the sides of each cabinet.

Construction and Connectivity

Finished in a hard wearing semi matt black paint, the cabinet is constructed of internally braced plywood and includes a rugged powder coated perforated steel mesh grille backed with reticulated foam. The rear panel connector plate carries Neutrik speakON* NL4 and barrier strip connectors for input and link connections to accommodate additional subwoofer, or satellite full range loudspeakers.

You Are Covered

We always strive to provide the best possible Customer Experience.
